An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the CBS. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the CBS, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the RSL's preparation and fair presentation of the CBS in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the RSL's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the committee, as well as evaluating the overall presentation of the CBS.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit we have complied with the independence requirements of Australian professional ethical pronouncements.
